<b>New ESOcast intro</b>	New ESOcast introduction
<b>Title: ALMA Catches Beautiful Outcome of Stellar Fight</b>	
1. ALMA has spotted a <b>peculiar cloud of gas</b> enveloping two stars that was formed after a stellar 'fight'.	
2. <b>One star puffed out</b> as it became a <b>red giant</b> and <b>engulfed the smaller star</b> .	
3. As a result, <b>this star spiralled in</b> towards the red giant's core...  ...provoking it into <b>scattering its outer layers</b> and leaving its core exposed.	
4. <b>Jets</b> , fuelled by ejected material, <b>blasted through the layers</b> , adding to the complexity of the gas cloud.	
5. This stellar fight can help astronomers understand the <b>final evolution of stars</b> like our Sun...  ...which will also become a red giant in a few billion years.	
<b>00:00</b> <b>[Outro]</b>	<i>Produced by ESO, the European Southern Observatory. Reaching new heights in Astronomy.</i>
